BALKS AT UNION WITH SOUTH IRELAND

Craig Refuses to Have Hand With Settlement

BLOW TO PEACE HOPES

De Valera and Lloyd George Will Confer Again Thursday—Demands Equal Rights.

London, July 19.—The Irish negotiations have taken an unexpected development late last night. Sir James Craig, the Ulster Premier, on leaving for Belfast, made an important statement, which appears to forbid any hope of assembling a conference such as Premier Lloyd George proposed between himself, Mr. De Valera and the Ulster Premier.

The Ulster leader maintains that Sinn Feiners themselves, by contesting the elections for the Northern Parliament on a platform of "no partition," in which they were roundly defeated, have recognized Ulster's claim to self-determination, and so far as his words have been interpreted for the present he seems to wash his hands of any further participation in the peace negotiations.

Sir James said:

"I return home well satisfied with the efforts being made toward peace. Mr. de Valera has broken his silence and cleared the ground by his statement to the press that he proposes to found his claim on recognition of the right of self-determination."

The Ulster Premier contended that the people of Northern Ireland in the recent elections "determined" their own Parliament by an overwhelming majority and that Mr. de Valera and his fullends admitted the right of such self-determination on the part of Northern Ireland by the fact that they themselves stood as candidates for the Northern Parliament and submitted their policy of "no partition." This, in fact, was the only issue placed before the electorate, said Sir James, and "no partition" was rejected by the largest majority ever secured in any general election.

"Such being the true facts," he continued, "it now only remains for Mr. de Valera and the British people to come to terms regarding the area outside of that of which I am Prime Minister. The people of Northern Ireland make no claim whatever to 'determine' the terms of settlement which Great Britain shall make with Southern Ireland.

"When this is accomplished I can promise cordial co-operation on equal terms with Southern Ireland in any matters affecting our common interest.

"Having reached the present stage, I return to Ireland to carry on the practical work of the Government. I feel that our interests are reliably represented in the Imperial Parliament and, of course, our services are available at any moment."

The official announcement issued at the close of a long conference between the Premier and Mr. de Valera today says:

"The conversations between Mr. Lloyd George and Mr. de Valera will be resumed Thursday."

This ordinarily would permit the British public and Ireland still to indulge in confident hope that a satisfactory settlement would ultimately be reached. But Sir James Craig's statement, which was given out in the form of an interview, has put rather a damper on the hopeful spirit.

Nothing is allowed to leak as to what takes place behind the closed doors of the Cabinet room, and the secrecy even extends to a tacit agreement to put no questions on the subject in Parliament. The negotiations, in fact, have all the character of diplomatic exchanges between two foreign diplomats.

Though it had been thought possible from the first that Ulster might adopt such an attitude, this sudden dashing of hopes that a peace conference would be assembled as an outcome of the separate negotiations of the Prime Minister with De Valera and Craig comes somewhat as a shock to the public.

"All Aboard" Folks

"All Aboard" for the Lyceum Hall Tomorrow and Thursday Nights

Hoi, hoi, who goes there? "The Columbian Players in their latest musical comedy success, "All Aboard" With an all star cast, aided by an array of beautiful sceneries, settings, costumes and voices, the Columbian Players will tomorrow and Thursday evening present to the theatre loving people of this vicinity one of the cleverest musical comedy productions ever staged in this city. Replete in all that goes to make up a clean, refreshing entertainment, the latest Columbian production may well be characterized as a show "without a single dull moment." A musical comedy is so popular with the American people today for the reason of its continual mirth, and when it comes to real, keen enjoyment, "All Aboard" promises to eclipse the success of The Columbian Revue of 1920, which played before packed houses last winter.

The play is under the personal direction of Norris N. Roland, who for a long time has been associated in theatrical work, and who, during the war, travelled extensively throughout the camps of the country affording entertainment to thousands of service men. The orchestra is being directed by George J. Jaeger.

The full returns of the show will be devoted to charity, and tickets will be available at the Lyceum on each of the two night, Wednesday and Thursday of this week.

GARVEY-GOTT NUPTIALS.

Miss Katherine Regena Garvey, daughter of Mr. and Mrs. James Garvey, and Mr. Kenneth W. Gott, of Falls Church, were married this morning at 10 o'clock by Rev. Father Smet, at St. Mary's rectory. They were attended by Mr. Hugh Gott and Miss Margaret Garvey. After the ceremony Mr. and Mrs. Gott left for a bridal trip.

314 BARRELS OF 60-YEAR WHISKEY BURIED IN MISSOURI QUICKSANDS.

Kansas City, July 19.—Three hundred and fourteen barrels of whiskey, which has been aging for 60 years, are buried deep in quicksand in an abandoned bed of the Missouri river, a short distance below Kansas City. It is worth not less than $1,000,000, probably $2,000,000 at bootleg prices.

And the liquor—the right to claim it and recover and dispose of it, if the law will allow him—belongs to Dr. F. D. Walsworth, of Wichita, Kansas. And all Doctor Walsworth must do is obtain some few hundred thousands of dollars, get some modern drilling equipment, locate the whiskey, bring it to the surface and cajole Mr. Volstead into allowing him to dispose of it.

For 60 years attempts have been made to salvage the whiskey, even today there are meetings behind closed doors, where men who would have played picturesque parts as pals of Captain Kidd or "Long John" Silver discuss means of getting at the buried treasure.

In 1861 the steamer City of Higbee cast off from St. Louis for Kansas City with 314 barrels of whiskey and other valuable freight on board. At a point some five miles south of Liberty, Mo., the steamer collided head-on with a cottonwood snag and before it could be righted a second cottonwood took it in front of the right wheelhouse, tearing a great hole in the hull.

The steamer, heavily laden, sank rapidly. The crew and passengers escaped with difficulty before she sank. At day-break only the smokestacks and upper decks showed, and shortly afterward even these disappeared. This point was about 12 miles northeast of the main part of Kansas City.

Had the Civil War not been in progress a successful attempt might have been made to rescue the cargo, Dr. Walsworth said today.

In the cook's absence the young mistress of the house undertook, with the help of an inexperienced waitress, to get the Sunday luncheon. The flurried maid, who had been struggling in the kitchen with a coffee-machine which refused to work, confessed that she had forgotten to wash the lettuce.

"Well, never mind, Marie," said the considerate mistress. "Go on with the coffee and I'll do it. Where do you keep the soap?"—Harper's.

$3,100 DAILY PAYROLL AT TORPEDO STATION

Five Hundred Are Employed at This Plant

150 MEN AT RANGE

Many of the Employees who Live in Washington Would Come Here if Houses Were Ovailable

The Alexandria Naval Torpedo Station on the river front here is one of Alexandria's leading industries and now gives employment to about 500 hands and has a daily payroll of $3,100

The mechanics employed at this plant include toolmakers, mechanics, buffers, coppersmiths, sheet metal workers, electricians, helpers laborers etc.

This station is devoted exclusively to the manufacture and assembly of torpedoes.

The torpedoes range, located off Piney Point near the mouth of the river. The personnel of the range and necessary small craft attached is more than 100 enlisted men who are in addition to the 500 employed at the plant in this city. The inspector of ordnance in charge is Capt. E. B. Larimer, U. S. N. There are seven other officers as his assistants in all branches.

Many of the employees of the Alexandria Naval Torpedo Station reside in Washington owing to their inability to obtain proper housing facilities in this city.

Just as soon as Alexandria furnishes the required number of houses many of these men and families will come to Alexandria and make their home here it is stated.

TRINKLE SPEAKS IN HIS HOME TOWN

Wythieville, July 19.—E. Lee Trinkle, candidate for the nomination for the governorship, made the first speech of his canvass in the Ninth district in the opera house here yesterday. This is Mr. Trinkle's home town and he had a fine, though mixed audience. The house was about full and Mr. Trinkle as usual held the close attention of his audience and was frequently applauded. His speech followed the lines of those heretofore reported from the eastern section of the state except that he made and appeal to his friends and neighbors stating that if they wanted him governor it would depend upon the vote of the Ninth district. The meeting was opened by Judge W. E. Fulton, democratic county chairman, who after a short address, introduced Prof. J. A. G. Hunt, division superintendent of schools who introduced the speaker. The meeting today will probably give an impulse to a campaign which has heretofore been marked for lethargy.

HUGE PYTHON ATTACKS MAN.

New York, July 19.—A scene of wild excitement and narrowly averted tragedy occurred this morning a the reptile house of the Bronx zoo, when a 24 foot rock python escaped from the grip of six captors and coiled three folds of its crushing length around the neck of Charles Schmidt, the bear keeper, who had been called in to help transfer the huge serpent from one cage to another.

As the python began to tighten its coils in a death throttle Schmidt's eyes bulged and his face turned purple. The other six men came to the rescue, while Curator Raymond Ditmars got a two-fisted strangle-hold just behind the reptile's head and began to do some choking on his own account.

There was a short, spectacular struggle—swirling, undulating muscular coils and swaying men—and Schmidt was freed.

"How did you get that scar?"

"I got that jumping through a plate glass window in London on armistice night."

"What on earth did you do that for?"

"Oh, I don't know. It seemed a good idea at the time."—Tit-Bits.

Booster Trip Plans

Merchants Plan Trip to Nearby Territory in Interest of Dollar Day

With a view toward interesting the residents of small towns in this section of the state in the coming Dollar Day sale the Advertising Club of Alexandria is planning a "Boosters' Trip," to occupy an entire day shortly before the sale which is to be held next month.

A committee composed of Messrs. Llewellyn Dyson, Irvin Diener, C. Page Waller, Jr., and Chas. R. Morrison was appointed by President Swan at the regular meeting of the club last evening to take the matter up with the Retail Merchants Bureau and to devise ways and means for the carrying out of this proposed trip.

Publicity advertising Dollar Day will be carried on the trip and it is planned to have about 25 automobile loads of merchants and business men make the trip. The itinerary will be arranged and announced later, the "Boosters" planning to visit such towns as Accotink, Falls Church, Rosslyn, Clarendon and other small communities that are near or directly connected with this city.

A number of other projects, all tending toward the advertising of the city and bringing more and more trade to this city were informally discussed and a resolution was passed inviting Mr. Mitchell, editor of the Washington Herald to address the Advertising Club at the regular meeting on the second Monday in September. The club plans to have a rousing big meeting on this occasion, to start the winter program.

The club then adjourned to meet at the call of the president who stated that a special meeting would be called to complete plans for the Booster Trip in August.

CHINESE FACE CANNIBALISM.

Peking, Saturday, July 19.—The national commission for famine prevention today received a report from the province of Kweichow, in the southwestern part of China, that famine conditions in the province are such that unless immediate help is given the people in 30 districts will be forced to cannibalism. The famine in Kweichow is described in the report as being as bad as in the most hunger-stricken districts of Honan.

A representative of the commission in Hunan reports severe suffering there.

SEEK MAN WOUNDING GIRL IN AUTO.

Atlantic City, July 19.—The county officials are seeking to discover the identity of a man who last evening shot Miss Nan Driscoll, 306 Drexel avenue, from a passing automobile, while she was returning to her home here after spending the day in the country. The wound was a superficial, one the bullet striking her on the arm.

HIS YOUTH SAVES SLAYER.

Los Angeles, July 19.—Gov. Stephens today commuted the sentence of William Henry Norris, alias Arthur Owen Davis, a Terre Haute, Ind., youth, from death to life imprisonment.

The governor announced that the reason was that Norris was not 18 years old at the time of the murder for which he was convicted.

Norris confessed that he had shot and killed City Marshal J. W. Rieves, of Redding, January 9 last, when the officer found him and several companions hiding in brush south of Redding after they had robbed a house.

GOMPERS AT WHITE HOUSE.

Washington, July 18.—President Gompers, of the American Federation of Labor, called today on President Harding, primarily, it was understood, to protest against admission of Chinese coolie labor into Hawaii for work on the sugar plantations as has been proposed by some island interests. Mr. Gompers, said however, that he had also taken occasion to call to Mr. Harding's attention the disarmament resolution adopted by the Denver convention of the Federation and to commend the action of the Executive in calling an international disarmament conference.

The labor leader spent three-quarters of an hour with the President and said he had been cordially received.

James W. Collins, candidate for the state legislature to represent this city and Arlington county, subject to the decision of the democratic primary which will be held August 2 has withdrawn from the race.

Mr. Collin's withdrawal unites Alexandria in this fight leaving only one Alexandrian in the race, Attorney Charles Henry Smith. Mr. Smith will have the united support of practically all Alexandrians in the primary which will be held two weeks from today.

FISHING BOATS DRAFTED TO HELP HOOK WHISKEY SMUGGLERS ON COAST.

Atlantic City, July 19.—Fishing boats will be pressed in service by Federal Revenue agents in their attempts to run down the band or individuals who are alleged to be smuggling liquor in wholesale quantities along the Jersey coast.

These boats, according to Federal agents now here, will assist the regular force of coast guard cutters and motor auxiliaries which have been searching the seas for the past two months, but thus far have failed to scare anyone. It is stated that the government boats on frequent occasions have seen the smugglers' craft beyond the three-mile limit, but were unable to touch them there.

It is understood that strict watch now is being kept on a number of inlets and bays of sufficient depth to allow small schooners to enter. The Federal men hope through the use of recognized fishing boats to outguess the smugglers.

ONTARIO STOCKS UP ON LAST DAY OF WET ERA

Toronto, July 19.—Today it was legal to import liquor into the Province of Ontario, but if anybody is caught doing it tomorrow or later the spirits will be seized and the consignee fined.

Thirsty folks of Ontario have given a thought to their cellars and large shipments of intoxicants have been rushed into the province during the last few days, so that the new provincial dry law will not be felt by some persons for months to come.

SKUNK ROUTS GOLFERS ON ROCKEFELLER LINKS.

Tarrytown, N. Y., July 19—John D. Rockefeller's private golf course acquired a handicap today which made the playing more difficult than any of the bunkers, traps or natural hazards. A small wild animal of powerful personality invaded the links, permeating the atmosphere to such an extent that only the most ardent golfer would go around without a gas mask.

One of the watchmen on the Rockefeller estate saw the interloper at a distance and seized a rifle to annihilate it. But he was so dazed on close approach that he accidently shot himself in the leg and was taken to a hospital.

Washington, July 19.—The Dial bill, to require Federal Judges to devote their entire time to court duties failed to get Senate consideration on a tie vote of 29 to 29 to take it up. WILSON'S LETTER

Mellon Has Free Hand in Settling Foreign Claims Within Five Years —Houston's Viewpoint.

Washington, July 19.—No objection to a five-year limitation on the blanket authority to the Secretary of the Treasury in the matter of refunding the foreign indebtedness of the United States was offered today by Secretary Mellon, when he again appeared before the Senate Finance Committee. But he insisted that there should be no Congressional restriction or interference in the negotiations.

Incidentally the Secretary admitted that despite the fact that Great Britain owes the United States more than $5,000,000,000, more than $32,000,000 had been paid that country from the United States Treasury for services in transporting troops within the past few days.

This payment was afterward referred to in scathing terms on the floor of the Senate by Senator William E. Borah and precipitated a general Senatorial debate. This had as its climax the reading into the Congressional Record by Senator Lodge, the Republican leader, of two letters on the subject of the foreign loans.

One was from former President Woodrow Wilson and the other from Houston. Both stated emphatically former Secretary of the Treasury that the United States Government would not agree to proposals of the cancellation and remission of debts put forward by Great Britain and other foreign governments.

The United States Government is "not prepared to consent to the remission of any part of the debt of Great Britain to the United States," Mr. Wilson wrote to Premier Lloyd George in October of last year.

"It is desirable that our position be clearly understood in order to avoid any further delay in constructive settlement of reparations which may arise from the hope that the debts of this government can form a part of such settlements," Mr. Wilson stated in his letter to the British Premier.

"It is highly improbable that either Congress or popular opinion in this country will ever permit a cancellation of any part of the debt of the British Government to the United States in order to induce the British Government to remit, in whole or in part, the debt to Great Britain of France or any other of the Allied governments, or that it would consent to the cancellation or reduction in the debts of any of the Allied governments as an inducement toward a practical settlement of the reparation claims. As a matter of fact, such a settlement in our judgment, would in itself increase the ultimate financial strength of our Allies.

"It is felt that the funding of these demand obligations of the British Government will do more to strengthen the friendly relations between America and Great Britain than would any other course dealing with the same," Mr. Wilson wrote.

"The long delay which has occurred in the funding of the demand obligations is already embarrassing the Treasury, which will find itself compelled to collect back and current interest if speedy progress is not made with the funding," Mr. Wilson also informed Lloyd George.

"Unless arrangements are completed for funding such loans, and in that connection for the deferring of interest, in the present opinion, here, there is likely to develop a serious misunderstanding. I believe it to be highly important that a British representative with proper authority proceed to Washington without delay to arrange to carry out the obligation of the British Government to convert its demand obligations held by our Treasury into long-time obligations."

In his letter of rejection to the British Chancellor, Secretary Houston declared that the proposition he ad-

TODAY'S THOUGHT

A Public Park.

It would seem as if Alexandria, to be abreast of her sister cities in this and other states, should provide a public park for her inhabitants. These breathing-spaces for the people have long since ceased to be classed as luxuries, and are considered among the necessities of all modern municipalities. The summer climate of Alexandria is such that for two or three months in each year comfort is most easily obtained by an out-of-door sojourn for at least an hour or two daily. Many people utilize the front step for this purpose. Those who are fortunate enough to have yards or premises with trees or shrubbery or lawn, are greatly in the minority. And even in this event a change of scene from the fixed habitation is much to be desired.

The city of New York has some fifty or more parks with an area of nearly fifteen hundred acres. It spends annually a sum in excess of two million dollars in their maintenance. Other cities spend as much or even more in proportion to their population. The Latin-American peoples provide not only parks, or plazas, as they call them, but the municipality or the federal government likewise furnish bands of well-trained musicians on two evenings each week, which generally play from eight o'clock till midnight.

We have not noticed among the projects formulated by the Chamber of Commerce for its encouragement and furtherance, any mention of a public park. Perhaps it is too much to ask of it to add this to its other duties, which are already numerous and praiseworthy. But it would seem that some time in the not remote future the matter might be taken up by one or more of our public-spirited citizens.

Perhaps a municipal wharf, extending into the river far enough to obtain the benefit of the waterbreezes would best serve the purpose. Provided with seats, with places for the serving of soft drinks, and with a band of music paid by the city for one or two evenings a week—surely the people would not grudge the expense of its provision and maintenance.

The proposition is, we think, worth considering, and sometime doubtless will materialize, either by public ordinance or private philanthropy.

WASHINGTON IN DANGER.

Mr. Stuart submitted the following preamble and resolution for consideration in the House: "Whereas the seat of the general government, from the unprepared and defenceless state of the DISTRICT OF COLUMBIA, is in imminent danger, if an attack should be made thereon; and whereas the fleet of the enemy is understood to be within a few hours sail of the capital; and whereas the immense value of public property—exposed to destruction, the great value of the public records and other deeply interesting considerations render it peculiarly important that any invasion of the metropolis should be met with vigor and successfully repelled; whereupon, RESOLVED: That in the opinion of this House a distribution of such arms as are in the possession of the government should be immediately made, to be placed in the hands of all able-bodied men within the district willing to be embodied, liable to perform military duty, and also in the hands of such members of this House as may be willing to receive them, to act against the Enemy in any manner not incompatible with their public duties."

The resolution was referred to the Committee on Military Affairs, who report that "they have examined into the state of preparation, naval and military, and are satisfied that the preparation is in every respect adequate to the emergency, and that no measures are necessary on the part of the House to make it more complete."

SPORTS

SOUTHERN METHODIST 14; SECOND BAPTIST 1.

The above score tells the story of the ball game played yesterday between the M. E. Church, South, and the Second Baptist teams of the Sunday School League.

The Second Baptist used four pitchers to stop the Methodists while Allen went the entire route for the winners.

Ladd led with the stick for the Methodists making two two base hits and a three bagger.

The next game will be played Wednesday between the First Baptist and the Methodists.

Manager E. R. Allen of the Dreadnaught A. C. is arranging one of the most extensive schedules ever presented to the baseball fans of Alexandria. On Saturday of this week the Dreadnaughts will entertain the Naval Air Station Club, which is stationed on the other side of the Potomac, and slated as one of the best service clubs in this section. On Sunday the Metropolitan A. C. of Washington will visit this city with blood in their eyes and a padded ball club to try their best to down the "D's." This club has been going at a fast clip, having defeated the best in Washington this season, even the great Knickerbocker combination, but it will be said that when they hit this port they will receive opposition. On the 31st of this month the Clarendon and the Dreadnaughts will hook-up in the second game of the season, and the game will in all probability be played in Alexandria but a definite decision will be made in a few days. On the following Sunday, August 4, the mighty Rex will be entertained once more and you can look for an interesting ball game. A game is pending with the Elk Grove, Pennsylvania, a semi-professional ball club for August 14th.

On August 21, the Capital City semi-professional aggregation will visit this city. This team has been touring the country with success. They will return from the West shortly before the 21st and the Kreadnaught manager was lucky to obtain the services of this ball club. Other fast clubs will be entertained here this season, such as the Norfolk Wildcats, another semi-professional outfit; Hampton Roads Training Station; Warsaw, another fast club, and the club is also trying to arrange a game with the Fredericksburg team. If the sporting public will give us support as we would like for them to do we will have a professional ball team to visit here at least once a week. We cannot survive on a thousand railroad track rooters or people that enter from the back way and what we want is the people to enter by the way of the box office and that is what counts, not 500 true sports paying for the enjoyment of which 5,000 socalled sports receive. Gentlemen, we cannot exist unless you come across. In the last two games the ladies have been charging to see these games, if some of these cheap scates, moneyhooders would come across we could easily accommodate the ladies, but under such conditions things will have to stand until the cheap scates loosen-up.

Up to this date the Dreadnaughts have played 26 games, winning 24 and losing 2. They have scored 248 runs to opponents 66. Five shut-out victories and losing one by a no-score game. All Saturday games begin at 4 o'clock and Sunday games at 3 o'clock.

The manager of this club has been asked to publish the batting average of each player which will be done in an issue of the Gazette this week.

REPTILE TALES

The East Indian python is capable of swallowing a live pig.

Only one species of reptile, a lizard, is found in the Azores.

Snakes rarely die in daylight, but usually between nightfall and midnight.

The English adder or viper is the only poisonous snake found in England.

Cobras, crotalids and bottraps are egarded as the most poisonous of snakes.

The common king snake is an enemy of the rattlesnake and often kills a rattler larger than itself.

The ringhals, an African snake, is capable of throwing a spray of poison a distance of fifteen feet.

The fer-de-lance, a tropical venomous American snake, of extraordinary virulence, is most conspicuous in artinique and other islands of the French Antilles.

Adders are most irritable just after reviving from hibernation.

The sphenodon, a lizard-like animal found only in New Zealand, is the only modern representative of the great reptilian order living at the close of the carboniferous age.

Fabrics That Blossomed for Midsummer Frocks -

SILVER-GRAY drifts of voile—soft clouds of dawn-tinted mull—a flutter of cool, clear-toned organdy—the loveliest frocks ever dreamed of are held captive in their billowy lengths, awaiting the magic touch of your needle.

Will you select the jade organdy or the apricot linen—the scarlet voile or the flamingo? It is merely a matter of preference, because you can't resist the fabrics and you don't have to. Our midsummer prices are setting a new standard of moderation. But even more important, a marvelous new invention bids you to choose the fabrics you most desire and it will grant you wonderful economies:

The DELTOR

A picture guide with every new Butterick Pattern that saves you 50c to $10 on every frock you make

First, you buy from ¼ to 1⅜ yards less material than you ever used before because of a wonderfully simple cutting guide worked out in your size, for your pattern, and in every suitable width of fabric. You follow it simply—surely—swiftly—and you have saved 50c to $10 in materials on every frock you make.

Then, according to the Deltor you put your garment together. Your needle follows its simple pictures as it flies in and out; with never a second of hesitation, you attain the perfect fit and drape that you thought could only be the work of a professional modiste of *Fifth Avenue or Paris.*

And last, the Deltor's finishing touches accomplish a wonderful thing for you. How often have you hoped to make a *"creation"* instead of just a dress? With Deltor *you* do just *that.* It reveals those intimate little touches of finish and adornment of a Parisian modiste—that make your frock stand out in any gathering.

SENTENCE FOR YOUTH, TOOL OF AUTO THIEVES

New York, July 19.—A ring of automobile thieves used 16-year-old Harry Telezheysky as a tool, it was disclosed today when the youth was sentenced to Sing Sing by a county judge in Brooklyn for stealing two automobiles.

The boy steadfastly refused to divulge the name of the man who hired him to steal the cars. He told the court he was the only support of his mother. His sentence was from two and a half to five years.

BRONX WANTS NICKEL BREAD AND ICE CREAM

New York, July 19.—The Bronx, whose youngsters recently paraded, demanding nickel sodas, and in some instances getting them now is demanding another five-cent article—bread

This time it is the women who are doing the campaigning. A hundred members of the Housewives' League today toured the borough in automobiles placarded, "The Nation Demands Back Its Five-cent Bread Loaf." Stops were made in front of bakeries and the proprietors asked to cut their prices.

HUGO STINNES EXTENDS GRASP OVER EUROPEAN INDUSTRIES.

Berlin, July 19.—Seeking new markets and new spheres of influence, Hugo Stinnes, Germany's industrial dictator, has bought two more newspapers. These are in Czecho-Slovakia, and by their purchase he also gets a controlling influence in the famous Witkowitz Iron and Steel Works. Herr Stinnes and a group of his fellow-magnates are gradually welding the coal, iron, steel, chemical, shipping, transportation, banking and paper industries, as well as the newspapers they can get hold of, into one vast economic machine. Their purpose is to recapture the world's trade, and to make Germany economically more powerful than ever.

According to recent announcements Hugo Stinnes now controls 1,340 companies, the capital of which exceeds 6,000,000,000 paper marks. A million and a half workmen are directly or indirectly employed by him and there is scarcely a single article in every-day use which is not, partly or wholly, produced by one of Stinnes' factories. Since the armistice he has built up a commercial octopus far greater and mightier than any military monster of which either Von Hindenburg or Ludendorff ever dreamed.

But in his very greatness lies his weakness, for the same workingmen who overpowered Von Hindenburg and Ludendorff hate and despise Stinnes, who pays no regard to the vast power and influence embodied in the workingmen's councils.

Besides Stinnes, there is Germany's "Big Seven," consisting of the following: Klockner, Thyssef, Woitleff, Haneil, Krupp, the Stumm group and the Phofix group. Between them these control nearly all that Stinnes has left of industrial Germany. With her army and navy practically gone, Germany's entire population is available for production.

Germany has gone back to work and is fast coming back to her pre-war basis, with her low rate of exchange as her strongest asset in regaining the world's markets.

We do this notwithstanding the fact that we have increased rather than decreased wages.

LAUGHS!

A literary family to which a seventh child had just come was at a country house, and for a time a good deal of the care of the other six children devolved upon the father, who had Spartan ideas as to the upbringing of his sons. One morning he carried his two-year-old to the creek near his home to give him a cold plunge. The child objected lustily to this proceeding, but was firmly held and ducked, notwithstanding.

At the instant of the ducking however, a brawny hand seized the Spartan father by his shoulder and flung him back, while the angry voice of the farmer, who was his nearest neighbor, roared in his ears:

"Here! None of that! I'll have the law on you for this."

For some time the father endeavored to convince the farmer that he was not trying to drown the child. Even then he wasn't wholly convinced. To the very last minute he kept shaking his head skeptically and saying:

"Well, I dunno about that. I dunno. You got six besides this."—Harper's.

Norfolk.—More than 1,000,000 barrels of potatoes have been shipped from the Norfolk potato section this spring, representing approximately 100,000 barrels more than marketed in 1920. Growers, however, received small returns for their labors, the market having suffered reaction, bringing prices down to $2 and $3 during the latter part of the season, so that the crop will be valued at little more than a third that of the crop of 1920.

Graham.—Milliard Woody, a 16-year-old Graham boy, and the son of J. W. Woody, was recently buried alive in a ditch, he was assisting in digging here and was dead when his body was taken from the debris, some thirty minutes after the accident happened.

Newport News.—Rum runners are operating off the Virginia coast, is the opinion of marine men of this city, the master of the American steamer Sewalls Point reporting on his arrival Wednesday that he sighted a mysterious sailing vessel near the capes while on his way in.

Norfolk.—Editors and publishers of national renown will have a part in the program of the thirty-third annual convention of the Virginia Press Association to be held in the Ocean View Hotel here July 21 and 22, when newspaper men from all parts of the State will gather to discuss problems of the "game."

Manassas.—The sixtieth anniversary of the first battle of Bull Run, or Manassas, occurs next Thursday, July 21, and will be celebrated in this city with fitting ceremonies. Many Union and Confederate former soldiers, now living in Maryland and Virginia, took part in that historic engagement.

"My husband has had indigestion for the past month."

BALKS AT UNION WITH SOUTH IRELAND

(Continued from page one)

The Ulster Premier now declares bluntly that the British Government must reach its own agreement with De Valera and that Ulster is determined to maintain its present status thus repudiating the whole Sinn Fein argument that Ulster is in the minority and must bow to the majority in Ireland.

There is some hope, however, that when Mr. Lloyd George meets Mr. de Valera again on Thursday he may be able by some means to rescue the negotiations from the apparent deadlock.

While the premier was in conference with Mr. de Valera he sent a telephone message for the Ulster leader, who arrived with the Marquis of Londonderry almost at the moment that the Premier was taking leave of Mr. de Valera; in fact, the latter was not aware until afterward that Sir James had been summoned. The official announcement shows that Mr. Lloyd George received the Ulster Premier and his colleagues after De Valera had departed.

Mr. Lloyd George conferred with the Ulster Premier alone.

A different heat for every burner, if need be

YOU don't have to "rush the fire" to bake—two burners of the New Perfection Oil Cook Stove will give you all the heat you need. And you boil a vegetable and make coffee on the other two burners if you wish. Plenty of heat, just where you want it and in the right amount—none wasted. You can regulate it.

The white-tipped flame of the New Perfection gives an intense heat and keeps the bottoms of your utensils clean—doesn't soot them up. Hence it lightens labor. And the chimney is made long for a purpose; every bit of the oil you use has a chance to burn up completely and produce its full share of heat. This is a big item of fuel saving for those who use the New Perfection exclusively.

Kitchens equipped with New Perfections—over 3,000,000 of them—are invariably cooler and more comfortable to work in. It's a great relief to be rid of coal, ashes, dust and wood in the kitchen. And there are fewer corners to collect dirt.

The New Perfection is made in one, two, three, four and five-burner sizes—warming cabinet or not, as you prefer. Of course, you will want a New Perfection Oven, too.

Aladdin Security Oil gives uniform, satisfactory results. You should use it regularly. It is economical because it's pure—all heat.

New Perfection Oil Cook Stoves are sold at most department, furniture and hardware stores.

"THE WORKINGMAN'S HOTELS"

The Salvation Army makes provision for the poor workingman of meagre wage who could not afford the luxuries of a clean bed in a respectable place for the five cents which these hotels charge.

There are 114 of these workingmen's hotels throughout the world, of which 60 are in the United States.

From 5c. to 25c. a man may secure a room with individual electric light, clean bed, with the privilege for a dime per night with a bed and locker in a large, airy dormitory.

Coffee and rolls are also furnished in some of the hotels.

While the men are expected to pay their way, orders and requests from other Salvation Army departments and various other established agencies of the cities are honored. Last year 518,142 beds were supplied free.

In these hotels they have regular band concerts and weekly religious services are conducted.

One of these, erected a little over three years ago in Chicago is a six-story structure with 611 rooms. It is steam heated, lighted by electricity and is thoroughly modern and sanitary in all of its equipment. There is a large reading room on the ground floor This one is termed the workingman's palace—and the balance of these institutions are palaces of cleanliness and comfort to the men who make use of them. It is estimated that 1,496,887 beds have been supplied and 371,334 meals provided [illegible] institutions.

MRS. HAYDOCK SAVED FROM AN OPERATION

Followed Advice of Her Druggist's Wife and Took Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I was in bed with a female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."—Mrs. E. H. HAYDOCK, 6324 St. Lawrence Avenue, Chicago Illinois.

Because Lydia E. Pinkham's Vegetable Compound saved Mrs. Haydock from an operation we cannot claim that all operations may be avoided by it,—but many women have escaped operations by the timely use of this old fashioned root and herb medicine.

U. S. PAYS BRITAIN ENORMOUS SUMS

(Continued from page one)

vanced did not involve "mutual sacrifices," and would virtually leave the United States to bear the brunt of the staggering financial burden of the war

Pointing out that a cancellation of the debts would not involve any losses to Great Britain because her loans had been made mostly with money advanced by this country, Secretary Houston assented that in the last analysis "it simply involves a contribution mainly by the United States."

"This nation," he concluded, "has neither sought nor received substantial benefits from the war. On the other hand, the Allies, although having suffered greatly in loss of lives and property, have under the terms of the Treaty of Peace and otherwise acquired very considerable accessions of territories, populations, economic and other advantages. It would therefore seem that if a full account were taken of these and of the whole situation, there would be no desire nor reason to call upon the government of this country for further contributions."

Secretary Mellon told the Finance Committee he had no objection to the authority asked for by the Treasury Department being limited to five years.

"Would you object to a two-year limitation?" Senator Reed inquired.

"I do not think that would be feasible," Mr. Mellon answered.

Senator Curtis, of Kansas, the Republican "whip," said that Senators "on both sides" believed the "entire subject of foreign loans ought to be fully considered and carefully weighed before the Treasury Department is given all the authority it seeks."

"It might be embarrassing to a foreign government as well as to ourselves to make public a settlement of a foreign debt," Mellon said. "It may or it may not be advisable to give publicity to whatever negotiations we enter into. I would like to think about it before discussing it more fully.

"We might effect a settlement with Great Britain, for instance, while negotiating one at the same time with France, and there might be reasons why it would be impracticable or inadvisable to let France know at the time what our agreement with Great Britain was. This sort of thing may be going on for years to come."

Although Great Britain owes the United States billions of dollars on which the interest is long overdue, this government is continuing to turn over to her millions in settlement of war claims which she is assiduously pressing.

This practice was revealed by Secretary Mellon. He admitted that within the last few days $32,000,000 had been paid the British Government in settlement of its claims against the War Department for the transportation of troops and supplies during the armistice. The action, he said, had been taken at the direction of the Attorney General.

Further, he disclosed that this payment was only the ballance of "large account" for similar services which the government had liquidated in cash instead of applying it against the British debt, and irrespective of the fact that the American Shipping Board held an identical claim against the Crown government for $12,000,000.

HOOVER URGES BUYING WINTER COAL SUPPLY.

Washington, July 18.—Secretary Hoover has advised public utility companies throughout the country to buy their winter coal supply instead of waiting for possible lower prices.

"I am convinced," said Mr. Hoover's letter, made public here today, 'that due to the general depression, the prices of bituminous coal at the mines is not too high at the present time. If there should be a recovery of business activities in the autumn taken in conjunction with the large increase in percentage of disabled cars, and the inability of the railways to finance their maintenance there are possibilities of developments of a most serious situation as regards coal movement.

"I cannot but feel that the Interstate Commerce Commission in the face of warnings they have sent out in this connection would not be disposed to give any priority in such an event."

DODSON WARNS CALOMEL USERS
It's Mercury! Attacks the Bones, Salivates and Makes You Sick

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

Kidney and Bladder Troubles Conquered or Money Back

For 40 years, said Dr. Carey, I have been prescribing Marshroot for kidney and bladder sickness and now that I have retired from active practice I have made arrangements with leading druggists to dispense this wonderful prescription at a moderate price, on the money back if dissatisfied plan.

Beware of kidney disease—thousands die of it every year who ought to be enjoying the blessings of life and health. Watch the symptoms. If you have specks floating before the eyes, puffy eyes, clammy feet or moist palms, backache or sideache, you ought to get a bottle of Dr. Carey's Marshroot right away.

It has wonderfully benefitted tens of thousands of cases of kidney and bladder troubles and is the medicine you can always depend upon. Results are guaranteed.

NOTE—Dr. Daniel G. Carey was a practicing physician for many years and his great Prescription, Marshroot aided thousands of sufferers from kidney and bladder troubles. Hereafter you can always get this effective Prescription at all reliable pharmacists the country over. Keep in mind the name, Dr. Carey's Marshroot prescription No. 777. No other medicine can take its place.

INFLUENCE OF MOTHER ON SEX CONTROL REFUTED.

Philadelphia, Pa., July 19.—The theory promulgated by Professor F. Coue, of Nancy, France, that the sex of children and their character as well, may be controlled by the mental attitude of the parents was branded as impossible by Dr. Charles Burr, brain specialist at the University of Pennsylvania.

Dr. Coue's contention is that if a mother desires her baby to be a boy she has but to repeat to herself about forty times a day that her child shall be a boy. He also contends that the mother, by repeating over and over that her son shall be an author, and by reading good books, can will successfully that her son be a writer and similarly if she desires her offspring to be a banker or financier, an hour's study of mathematics every day will gratify her desire.

"It is absolutely impossible for a parent to influence the sex of offspring by auto-suggestion," is the opinion of Dr. Burr, and his view is supported by Dr. J. E. James, of Hahnemann Medical College. "A mother may repeat to herself a thousand times a day 'my child will be a boy,' but the sex will not be influenced. She may suggest to herself unceasingly what sort of a boy she will have, but it will have no effect."
